

April 2025 // Issue 11

MP Connect

CHECK PROOF

Vehicle inspections

Check Proof is Heidelberg's approved vehicle auditing app

Recent vehicle inspections have flagged a number of safety concerns:

- Side scan not functioning correctly
- CCTV – haulier unable to operate and/or download footage at request
- Audible vehicle turning left on indicator

Please check your vehicles for safety compliance!

A full vehicle safety spec list is available from your DRM

Progress report:

As you may be aware, more and more of our sites are now scanning MPQC cards on entry.

You can also 'Check-In' on the MP Connect app, downloadable through Apple and Android. The app will also be added to your Track IT tablet in due course:

Official go live date: June '25

Do not get caught out! MPQC subscription is mandatory, with out this, entry to our sites will be refused.

You will need to contact MPQC and subscribe (MP CONNECT - 01158600155) This will then enable us to review information on the card.

Each driver will be required to comply in 3 areas:

- MPQC subscription
- Site induction
- MPQC card/course in date

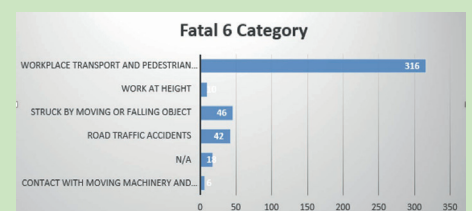

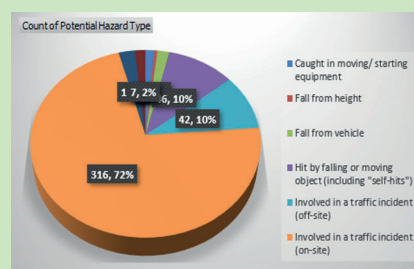

Site inductions are available from plant weighbridge, DRM, drivers' webpage (listed below) and now on the Track It tablet under 'Training' app.

Near Hit reporting '25

Below shows the outcome of Near hit reporting so far this year, all of which relate to aggregates and asphalt business lines.

A near hit is scenario or situation which has the potential to cause harm.

Derived from the results above, we have categorised into the Fatal 6 below:

Ticketless

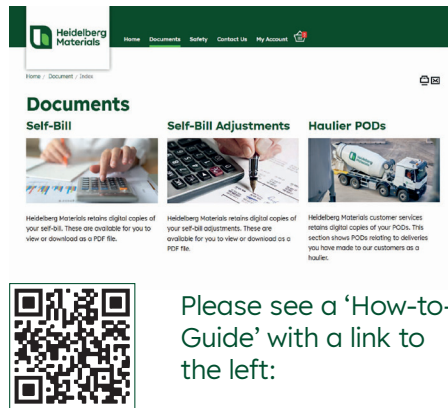

As we look to progress into a Ticketless future, we encourage all hauliers to create an online account:

Lets go Digital!

Paperless will require the haulier to create an account on **Myhaulier.heidelbergmaterials.co.uk**

For all your EPOD's and a self-billing platform.

Once registered and an account is created.

Please see a 'How-to-Guide' with a link to the left:

Vehicle CCTV

Have you checked your vehicle footage recently, is it functioning as it should be? Are all cameras operational? Are you able to download footage on request?

As you may be aware, vehicle footage can prove to be invaluable during incident investigations.

Over time your local DRM we will be requesting footage at random. This will highlight any CCTV issues amongst the fleet and can be addressed accordingly.

Mission Zero

Mission Zero is a new haulage accreditation scheme

Recently approved by Heidelberg Materials

Please see your DRM for more info

FYI FORS accreditation is still valid

Vehicle Downtime

Please remember to book-in any vehicle downtime with the distribution team in advance:

- MOT's
- Services
- Driver Holiday
- Any other instance that would result in a franchise vehicle being off the road.

A 3-days' notice period is required, in order for planning to accommodate service.
